PA,

I've been doing your exercises for just over 3 weeks now and the results have amazed me!!

Before i found your program, i was doing these exercises i found on a website claiming to give free natural penis enlargement exercises. I was doing these for about 6 months but saw next to no gains at all.

Then after doubting wheather natural enlargement actually works, i decided to risk it and join PAdvantage. The results have blown me away. After just over 3 weeks i have gained just over 1cm in both my erect length and girth - thats about half an inch!!!!

How - **REAL** - natural penis enlargement works

Your penis is made up of **three chambers**, two large ones which run along the top (Corpora Cavernosa) and one smaller one (Corpus spongiosum) that runs along the bottom of your penis.

When you get an erection, the larger chambers are the parts that fill with blood, in turn causing your penis to expand. **Your penis size** is currently **limited** to the amount of blood these two main chambers can take, when they're full, you have your maximum erection size.

The **key** to enlarging your penis, is to use special techniques designed to increase the amount of blood that these chambers will hold. **The more blood that gets into the penis, the bigger it becomes!**

PenisAdvantage works by breaking down the cell walls and **gently** forcing more blood through them. The penis then repairs itself growing the cells back larger and stronger than ever before, which allows a greater intake of blood and therefore resulting in a **larger, fitter and more attractive penis.**

The penis, although not a muscle, is very similar to any other part of the body - If you don't exercise it, then it'll never be as good as it could be!

Imagine if you'd never done any exercise before, think how unfit you'd be!!!

Most men, including you, have very underdeveloped, unfit penises. That will all change - starting from today...

Testimonials

All of the below are just a few genuine testimonials (edited only to remove any offensive words) sent in by guys using the Penis Advantage program.

All of these testimonials are kept on file. Where names have been left out we have done so either by request or for reasons of anonymity.

"Before I began the natural penis enlargement exercises I measured 7 Inches in erect length, and 5 inches in erect girth. While flaccid I measured 4.7 Inches long. I began doing the exercises, slightly skeptical I admit, and 3 weeks later I was very happy with my progress. I measured 7.85 inches erect length and 5.5 inches erect girth, and 5.5 inches flaccid length. I was actually quite shocked at the huge gains I'd had, and continued the exercises regularly, sticking to the workout schedule rigorously. After about 2-3 months I am 8.2 Inches in erect length and 5.9 Inches in erect girth. I am also 6.2 inches long while flaccid.

This has had a huge impact on my life, not only has my sex life improved greatly, I feel much more confident and proud. Natural Penis Enlargement works!"

"I just joined penisadvantage.com a couple days ago. So far, I have enjoyed a harder more "full" penis. Thanks. Although, I have a question:

I was circumcised as a child, and I have a rather "tight" circumcision...[Email continues] "

"Thanks I tried many times logging in with those same username and password but it didn't work. However now I formatted my computer completely and now it is working again and everything is fine. It was because of all the viruses on my computer like i thought it might be. And by the way thanks for your great product!!! I have gained almost 1.5 inches so far and will measure up again after completing the 62 day course. I sure have never got anything this good for 50\$!!! I will buy your other products too since they seem to work. (You need to set your prices higher :))"

"I came into this thing thinking that claims of 1-3 inches in 3months would be hard to come by, but I did think that this would work, but it will take more time than that. I have already seen gains for myself, without being TRUELY dedicated to my workouts, but since I am seeing the gains. I am making it a point to stick to it now. My erections do feel stronger and heavier"

"Louis, I KNOW this system works. I've made it work once and now I'm making it work again. And I'll be glad to help you with it."

"I did six weeks a few years ago and went from 5.75 to 6.5 and added girth."

"I'm really glad we met. We'll be good for each other. I too have been looking for a jelq buddy. It keeps us clear and motivated and fun."

"I'm working toward and nice thick 9 incher. I see those at the nude beach down here (Ft. Lauderdale) and I KNOW the girls love that look."

"And I also started liking my penis more. I stopped resenting that it wasn't as big as I wanted it to be. That helped too."

"rich, what do you call "significant". Ive put on 1 1/4 in length and about 1/4 in girth in a little over a month. Would you call that significant?
Im certainly happy."

Taken from the Penis Advantage Members only Chatroom

"I've just recorded my first 'significant' growth, 1/4 of an inch after 2 1/2 weeks of PEing. Might not sound like much but I've 'never' been over 6 and a half. Last while PEing I got a hard-on and my cock measured in at 6 3/4. I couldn't believe it! This stuff really works. I'm not going to measure for another 4 weeks and hope to make 7" by the end of the year."

"I started with a VERY VERY small penis. It was just 5.1 inches ERECT! My lady friend stuck by me but I have always known she has wanted more. To make her happy Rog, I started PA. I just want to thank you personally for helping me with get my exercises right and your dedication. I'm glad you are my trainer. I can happily say that after last nights measuring I am now 1.6 inches longer and 1 inch thicker since starting back in Jan. Thank you so much Rog, I'm going to keep working at it till I'm huge!!!"

"hi there bro, well, know what? i did try your advices on warming-up and the 1st PE exercise, and now i'm beginning to see some differences. But i'm still looking forward for your other PE exercises more, and hope soon. thanks and good luck!"

"i really love to see it grow..."

Jedd

"it worked. Thank you very much!!!"

"In three weeks, I have gained 1 inch in girth and 1 inch in length. It is really looking good (and much heavier) I am taking the pills too [These pills are not part of the Penis Advantage program - this client has decided to take some pills to supplement his workout - PA Support], and very faithful to the exercises. I'm 61 years old, and boy does this make me feel young.

I started at 7 inches, and 4 inches in girth. I am now starting to pass the 8" length and 5" girth marks. I am going for 9.5-10 inches in length and 6-6.5 in girth. I know I'll make it. It makes a man my age feel really good to see his penis become heavier, thicker, and longer. I'll be able to pick my women (any age) once I achieve my goal and the word spreads about my size.

I have already had compliments from a few. They loved giving me oral, and want more. I'm at the 30 second hold on my PC muscle also!

Thanks much for this program.

Happy (very) senior citizen from Indiana."

I am a new member and I have a concern--
which arose when using "[Name removed for
legal reasons]" another site that you may
recognize.

Unlike your introductory program, [Name
removed] uses a tourniquet technique at the
base of the shaft. I used this method and
injured myself--I have a bruise at the bottom
side of my shaft but I am not in pain.

My question is this: at what point can I
proceed with your program? I ask this while
realizing that you are not my doctor; I just
want some advice and I will proceed at my
own risk.

Thank you"

"I just wanted to thank you once again for the link to that open forum that you sent me the other week!
Man, that's a great idea! You and that guy are true saints...God Bless!

It really blows my mind how this stuff exists and works, yet everyone guy in the world isn't using it! Part unawareness part laziness I guess. I'm going to pass it on to one buddy of mine living in Ireland who's been keen on penis pumps ect for years. I figure there's a good chance that he may join the PenisAdvantage website, and I'll be sure to pass on your name and site to him as well of course, first thing!! I really don't know if he'll get a membership or not, but there's a decent chance I figure. why not?

So far I've been getting some way credible results just using the exercises from your book and some others I just come up with on my own (I do try to be as safety conscious as possible). I find just hot water treatments and steady dry jelqing, or kind of just rolling it out at the base, to go a really long way! Of course I do know the value of the blood trapping techniques to be 100% invaluable, and lots of rest in between workouts as well. Anyhow, things are going good here, hopefully there too, and I just wanted to thank you once again! Thanks Buddy!!!

"Hi Roger,

Thanks for the e-mail. I apologize for the long delay in answering.

I've used a few enlargement systems, including penis pumps, and so far, I'm very pleased with the results I'm getting with Penis Advantage.

I've been on the program for almost one month now and already, I have stronger erections and "think" I'm showing some increase in growth. I actually enjoy the workouts. I travel a great deal and this will give me an outlet on those evenings and early mornings in the hotel room...

Thanks again!"

"First of all I thank you for your consideration.

It is a great

feeling to have people like you around us who care. I follow your advice one by one and you would be amazed to know I feel comfortable and no bad effects.

I'll continue to follow the steps and if you don't mind me asking if I need to ask a question. Just one question I would like to ask you is that I ejaculate fast and I want to learn something from your experience to make me stay longer. Something that I can do with no side effects. Especially when I go on two women in the same time. Thanks again and I'll be waiting for your answer.

Thank You."

I am rather sorry for the delay in reply to your message, I had exams.

Periodically I shall be calling on your opinion and expertise should your well planned and designed web sight not be able to help."

I'm very exited about seeing my results as time goes on. I have the nickname *****. I can't wait till my nickname is BIG**** *****."

"I have only been on the program one week and can't believe the results I have been able to attain seemingly overnight. I have only performed 5 sessions and want to attain 1/4" more in length and I will have achieved everything I wanted to with this program. I was wondering how I should maintain the gains I have already achieved without encouraging more than 1/4" more length?"

Are you really happy with your **penis size?**

- > Add 1-4 Inches In Just 6 Minutes Per Day
- > Full 8-Week Money-Back Guarantee
- > Rated #1 PE Site - Award Winning
- > Totally Unique All Natural Penis Exercise Program

The Penis Advantage program is 100% safe using just your hands.

Here is a list of the Penis Enlargement Methods to avoid at all costs!

What we're about to tell you, you really won't like!

There are NO LAZY WAYS to enlarge your penis! 'Magic' Penis enlargement pills don't work, penis enlargement pumps don't work and almost any other method you can think of right now, DOES NOT WORK!

There is only **one system** that has been **independently tested** to show that permanent penis enlargement is possible, and you are here right now - PenisAdvantage.com.

Penis Enlargement Pumps - DO NOT USE!

The theory behind pumps is that the vacuum created inside the pump will induce greater bloodflow helping to stimulate growth. We'd love to be able to tell you that you can put your penis in a tube of glass or plastic start pumping and an hour later your penis will be huge, but unfortunately, we can't. They simply don't work.

There is an inherent risk that you could burst capillaries, get blisters or even worse, develop improper circulation leading to possible impotence and a whole host of other problems.

At best you may get temporary enlargement but it soon fades back to your normal size. Regular use, could lead to Peyronies disease, tissue scarring or penis deformation leading to an ugly penis and a very unhappy you.

Penis Enlargement Pumps

- Temporary results that fade after a few minutes.
- Potentially dangerous.
- Over pumping can lead to various problems.
- Risk of Peyronies disease.
- Risk of blisters.
- Risk of circulation problem.
- Risk of burst capillaries.

Why is Penis Advantage better than penis enlargement pumps?

- With our program you will discover exercises that are 100% natural and safe using just your hands. PenisAdvantage will help you **develop a thicker and longer penis, giving you harder and longer lasting erections** with more frequency.
- The gains you will make on the PenisAdvantage program will be **permanent** and long lasting, you will enjoy them for the rest of your life.
- Our program works **really fast**, first results will be seen in as little as 2 weeks!

Penis Enlargement Pills - **DO NOT USE!**

Can penis enlargement pills really make your penis bigger on their own?

No, of course they can't! Penis enlargement pills do not work!

The pill companies normally give away a basic exercise program and it is the workouts that actually give any growth. Unfortunately, their exercise programs are written very poorly, lack detailed advice and are extremely ineffective.

We've talked to many of our members that have tried pills before using PenisAdvantage and not a single one of them said they'd got ANY gains WHATSOEVER from the pills! Yes, admittedly, we can see that the herbs in some of the brands may help to increase bloodflow to your penis and maybe give you slightly stronger erections, but permanent penis enlargement? No chance!

Save your money, don't waste it on a bottle of vitamins that alone will not help you enlarge. If you do decide to try the pills, you will have wasted your money and you will be right back here a few dollars poorer. The pill companies offer limited guarantees but in our experience, they hardly ever pay out when their product fails to do what they claim.

Also, what risks do the pills carry?

We have heard of allergic reactions AND many of the pills contain ingredients the Federal Drug Administration have specifically made warnings about!

Penis Enlargement Pills

- Innefective for real penis enlargement - they don't work!
- Slightly harder erections are not the same as a bigger penis.
- Very, very expensive!
- No permanent gains.
- Potentially dangerous herbal ingredients in some brands.
- FDA warn against some of the ingredients!

Why is Penis Advantage better than penis enlargement pills?

- PenisAdvantage will actually help you **develop a thicker and longer penis, giving you harder and longer lasting erections** with more frequency. Unlike penis pills, our program works!
- Penis enlargement pills do not work and could be unsafe. PenisAdvantage is 100% safe and guaranteed. Get the growth or get your money back.
- Our program will increase your sex drive, increase your penis head size, and help improve your overall health getting your prostate in shape and preventing impotence in later life.

Penis Enlargement Weights/Hanging - **DO NOT USE!**

Practised for many years, some men claim weight hanging has actually enlarged their penis. An inch in 2 years isn't unheard of. Unfortunately, weight hanging can sometimes stretch the ligaments too much and can cause serious problems and possibly even permanent impotence. Also, weight hangings cannot help the girth of your penis so you are likely to get a thin, stretched out weak looking penis and this is after many years.

Penis Enlargement Weights

- Potential scarring
- Risk of stretch marks
- Too much usage will actually decrease size
- Permanent impotence
- Penis deformation
- Nerve damage
- Lack of proper circulation
- Generally unsafe
- Loss of sex drive
- Decreased sensitivity

Why is Penis Advantage better than hanging weights?

- PenisAdvantage will permanently enlarge your penis without the worry of any dangerous side effects. What could be safer than using your own hands?
 - Penis enlargement weights can give thin unhealthy snake looking penises. Reports suggest that chances of impotence are high. Nobody has ever had any unwanted side effects from Penis Advantage, it works and is safe!
 - The Penis Advantage program won't take years to start working, first results should come in just weeks.
-

Surgery - DO NOT USE!

Blades near your penis? Do we really need to say anything else?

Surgery is expensive and dangerous. Numerous newspaper articles and court cases have arisen from penis enlargement surgery when it's gone wrong. It costs thousands and can cause a host of related sexual problems. Surgery is painful and no guarantees can be made as to the results or your overall safety. Cutting the penis can cause irreversible damage and should be avoided at all costs.

You shouldn't even be considering dangerous surgery when you haven't tried the only 100% natural and guaranteed way to enlarge your penis that we offer.

Penis Enlargement Surgery

- Very expensive and unsafe
- High failure rate
- Highly dangerous
- No guaranteed results

Why is Penis Advantage better than surgery?

- Penis Advantage is 100% safe and we guarantee results or your money back.
 - You can start using our unique natural exercise program today and start noticing results really quickly!
 - Our program costs just a fraction of what surgery does.
 - With Penis Advantage you also get increased sexual stamina and ability, harder and more frequent erections and better penile and sexual health.
 - We offer 1-4 inches growth and you can start today!
-

You can start enlarging your penis today, to improve your life, increase your confidence and have great sex.

Frequently Asked Questions

Will your penis enlargement manual work for me?

Our guide works for over 99% of men!

The only people that shouldn't use this manual are those who are not in full health such as those with advanced diabetes, or men with Peyronies disease (severe curvature of the penis - we can help with cosmetic slight curves of the penis but not with severe bends).

How old do I have to be? Am I too young or too old?

You have to be 18 or over. There is no upper age limit. We have many members in their 20's, 30's, 40's, 50's, 60's, 70's and beyond! If you are in good health, you can enlarge your penis and get much bigger, better and firmer erections with our techniques.

Is it safe?

There are no known dangers to the exercises contained within this manual. We tell you **how to do each and every exercise completely and safely**, and if followed you will have no problems whatsoever. We have had no complaints of this kind! **Doctors have been known to recommend many of these techniques!** Some of them can help to save your life and improve your health immensely (For example, Pubococcygeus exercises - which are in our guide - can help to increase the fitness and health of your prostate gland)!

How do I view your members-only site?

If you are reading this now, then you have everything you need to view our members only site. Our guide is 100% online which enables us to update the manual frequently, give you instant access and keep you up to date with all the exciting new techniques. We support Netscape Navigator, Internet Explorer, AOL and any other major browser, so you can access the guide from wherever you are at any time.

How long will it be till I see results?

Every man is different, many men start to see results after their first session and others take a little longer. **The average is two weeks.** We give you an 8-week money-back guarantee as we are that confident that anybody and everybody who uses our manual will gain that extra length they always desired.

What results can I expect?

You will achieve larger and firmer erections. Both the length and girth of your erect penis will be increased. Your flaccid penis (soft) will be bigger, hang lower and appear fuller, more of the time. We also have exercises to increase the size of certain areas of your penis such as your penis head size.

Size improvements will be permanent.

Your erections will last longer and you will be able to control your "time to ejaculation" much better. You will be able to have sex for longer, stay hard for longer and please your partner more. We can also help to straighten any cosmetic curves in your penis. Increase your sex drive and stamina. Your confidence will improve along with your self esteem. Plus many other benefits mentioned elsewhere on the site.

Are the workouts hard to do?

Our workouts are extremely easy to do, anyone with two hands can do these exercises. Each exercise has detailed and easy to follow explanations with

photographs. Also, we have just added **NEW exclusive online video clips of the main exercises making learning even easier!**

Are the results permanent or do I have to do the exercises forever?

The **results are permanent!** The exercises work by gently breaking down the cell walls of the Corpora Cavernosa. When the cells regenerate they grow back stronger and bigger, never to return to their smaller size again. When you have achieved your desired size, you simply change your workout to our exclusive "End-Setting" workout, which our personal trainers will design specifically for you. You **follow this final workout for just 1 month** and after that **you will NOT have to work out your penis ever again. Your gains will stay with you forever.** No other site that we know of offers this tailored service for free - WE DO!

When I stop working out at the gym, my muscles get smaller, won't the same happen with my penis?

The penis is NOT a muscle, when you stop working your muscles, your muscles reduce in size. Your penis will NOT reduce in size when you stop working out as it is not a muscle. The cells should be permanently enlarged. Cementing your gains is the most important part of the process and we help you every step of the way.

What support do you give to your clients?

We have **personal trainers**, who each work to answer your questions. They have all used Penis Advantage and experienced fantastic results. These people have a wealth of experience and know how to get the best out of the program. You get **24-hour 365 days a year E-mail support**, YES even Christmas day! We aim to answer all questions within 24 hours and often we are much faster!

Also, we have a **members-only chat forum** where you can share your experiences, ask questions or seek advice from other members. Being able to talk about your workouts in our members community can greatly increase your motivation and help you get the bigger, stronger and fitter penis you desire. We have many extremely helpful members who regularly frequent the chat room and love to help out.

Will I have to purchase anything else, or will I be charged more than once?

We will never make you purchase anything extra and your payment is a one-time only payment. You will not be charged again. The price you see is the price you pay. Everything that you need to get bigger is included in our members only area.

Is there a guarantee?

YES, we stand behind our product 100%. We want you to be extremely happy with your purchase! That is why we offer an **8-week money-back guarantee!**

PenisAdvantage will work for you!

Try PenisAdvantage now and if you aren't happy with the results and gains you make, we will gladly refund every last penny of your money - **No questions asked!**

Are my details kept safe and will anyone know I am enlarging my penis?

The card details are taken **securely and safely** by one of the largest third-party credit card processing companies on the Internet, Clickbank. They are extremely trusted and deal with millions of dollars worth of transactions every year. You will never be sent anything through the post and your card will be billed as CLICKBANK / KEYNETICS, so nobody will know your secret unless you wish to tell them.

Will anything be delivered to my house?

No. Your privacy is important to us. We will never send anything to your home and we will never call you. Our product is online and your purchase is made through secure servers.

I don't live in the USA can I still get access to the guide?

Yes, we have lots of clients who live all over the world. Everywhere from the UK and **Australia**, to Korea and Uruguay. We charge in US dollars as the majority of our customers are from the **USA**. But if you live in the **UK** or anywhere else for that matter, it isn't a problem.
